

UBUNTU PARTY

LET US REMEMBER

THE COUNTRY BELONGS TO ITS PEOPLE AND THE GOVERNMENT WAS APPOINTED AS THE SERVANT OF THE PEOPLE – TO DELIVER ON THE NEEDS OF THE PEOPLE

BUT our roads have been sold to foreign corporations – Our economy has been hijacked by international banksters who have been granted complete freedom to financially cripple every South African. The banks are protected by a complex legal system that does NOT serve the people. Under our laws, corporations have more rights than living breathing human beings.

THE GOVERNMENT HAS STOLEN THE COUNTRY FROM ITS PEOPLE And turned the people into its slaves.

Our economic policy is dictated by a PRIVATE corporation called the **SOUTH AFRICAN RESERVE BANK**, with secret owners in Basel, Switzerland – it does NOT belong to the government or the people. Our banks are allowed to create money out of THIN AIR - money that we have to repay with huge interest, turning our people into DEBT slaves for the rest of our lives. This is why we pay interest, income tax, fees and levies – to repay the private banks' money.

BASED ON THESE FACTS – UBUNTU WILL DO THE FOLLOWING

1. Restructure the entire banking system to serve the people, and not enslave the people.
2. Establish a **PEOPLE'S BANK** that creates money for the people by the people, tax-free and interest-free, which will result in 100% employment and stop the financial enslavement. The new People's Bank will provide money for everything we need to do in our communities – this is how simple it is.
3. Let our scientists and inventors deliver a renewable source of Free Energy for every South African.
4. Support our traditional healers and research scientists in finding alternative cures for all diseases and prevent the drug cartels from hiding such cures from the people.
5. Support our farmers at every level to grow organic food; ban all GMO seeds and giants like Monsanto; plant food gardens across the nation so that no South African ever goes hungry again.
6. Decentralise the government so that people can govern themselves in their own communities – taking care of their own needs immediately, supported by the new People's Bank.
7. Restructure the judiciary and the legal system, to be written by the people for the people, unlike the unjust legal system we face in our courts today, which only favours corporations.

Our money must be issued by the people – For the people – Not by private corporations

The **UBUNTU Party** philosophy is based on the principles of absolute equality, decentralised power, traditional values of UBUNTU and unity amongst our people. Our scientists, engineers, farmers and ordinary people have the answers to solve our problems rapidly. Our government does NOT. The **UBUNTU Party** does not seek to govern the people but rather to empower the people to govern themselves in united communities. No one homeless; no one hungry; everyone able to follow their passion and contribute their "labour of love" for the greater benefit of all in their community.
